We believe in a proactive, preventative approach to your horses health care. We know how important your horses health is to you and we want to help you keep them happy and healthy for longer. NWEV Horse Health Plans are suitable for all horses, ponies and donkeys.

Our Horse Health Plan is not insurance. It is intended to take care of the regular things – like vaccinations, worming, dentals and advice, all in an easy monthly payment plan. It's all the things that equine insurance generally doesn't cover.

Having a Horse Health Plan makes it easy to protect your horse against preventable diseases and discomfort by ensuring vaccinations, parasite control, dental's and general health checks are all up to date. Regular check-ups and early diagnosis of any potential health issues will also help your horse to enjoy a comfortable life, helping to give you peace of mind too!

**A simple and affordable way to get all of the preventative care that we recommend for your horse, designed to help you budget and spread the cost over 12 months by Direct Debit payments.**
